

TOTAL FLEXIBILITY ... IN MORE WAYS THAN ONE.

Product flexibility is critical to fast, easy lineset installation. But, just as important is the flexibility you get in time and cost savings. That's why we offer over 1,000 different CerroSet® lineset combinations for split system AC and heat pumps based on tube diameter, insulation thickness, length, end finish and refrigerants.

Manufactured to Cerro's highest standards, every lineset is precisely annealed to resist kinking when bending, is nitrogen purged for superior cleanliness, and, is supplied in precise lengths for reducing product waste. It all means you get fast, cost-efficient field installation and premium performance.

For all your copper tube requirements, contact or ask for Cerro - a world leader in copper tube with a continued commitment to uncompromising quality and new service offerings to the markets we support.

WIN! Go to www.cerroflow.com/flexible to learn more about Cerro's 1,000 different lineset combinations and register to win a \$50 gift certificate of your choice.
