

OUR NEW LINESET PACKAGING REALLY STACKS UP!

- 1 Superior Stacking:** corrugated top and bottom protection panels allow you to easily stack individual linesets outside the master cartons.
- 2 Product Identification:** prominent, easy-to-read labels are viewable from the top or side of the lineset.
- 3 Reduce Storage Space:** space-saving packaging eliminates bulky cardboard boxes allowing you to inventory more linesets and/or store more linesets per master carton.
- 4 Product Protection:** product is sandwiched between corrugated panels and sealed with tough, heavy gauge shrink-wrap to shield product from damage during delivery, re-shipping and at the job site.
- 5 Easy To Handle:** smaller, compact packaging allows convenient handling and carrying.
- 6 Environmentally Friendly:** less packaging material reduces amount of disposal waste after installation.
- 7 Strong Master Carton:** sturdy corrugated box provides superior handling, stacking and product protection.

We listened to our customers and are now providing superior quality Cerro Flow linesets in a whole new package that is more efficient, compact and user friendly. For the very best, rely on Cerro Flow Products ... Always Moving Forward.
